

Description

AL-ROD is an EC grade high-purity aluminum rod manufactured for use in a wide range of electrical and industrial applications. Available in 9.5 mm and 12.5 mm diameters, AL-ROD serves as a primary material for overhead conductors, enameled wires, flat wires, and PFC tubes.

Technical Specifications & Packaging

Product	Diameter (mm)	Al Content (%)	Packaging				Applications
			Compact Type		Laid Type		
			Unit (mm)	Weight (ton)	Unit (mm)	Weight (ton)	
AL-ROD	9.5±0.5	Min. 99.70	1350~1550	2~2.5	2200	3	Overhead Conductors, Enameled Wires, Flat Wires, etc.
	12.5±0.5	Min. 99.70	1350~1550	2~2.5	2200	3	Flat Wires, PFC Tubes, etc.
